### **MILE Internship**

You will notice two documents attached regarding an internship with the MILE program. For this internship we will be seeking the best and brightest in the school, oh hey that's you! This is an offer being made specifically to the MILE program, for those who are in the MILE program. If you would like

to work for the MILE program through a summer internship, please fill out the attached form. This will be a great way to work directly with Dr. Bob, while developing the program that helps build and shape your fellow students. The deadline to apply is February 3<sup>rd</sup>, so act with quickness and vigor if you are at all interested.

We hope to see you all Thursday! Have a great week!
